

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Amy Pattillo on 7/17/08.

The application has been amended as follows:

Claim 14

Remove "0076-0078, figure 8, element 806" on line 17.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach managing error analysis within a grid environment wherein an agent is enabled to receive multiple types of error messages generated from the multiple diverse systems within the grid environment. Each error message is parsed to determine a general error indicator, an application identifier and a requester identifier. Then, the agent attempts to resolve the general error indicator and return a solution to each parsed error message. The agent resolves the error by using a policy validated against an XML document-type-definition (DTD) and specifies the transmission of the solution in a format specified for the requester system. Alternatively, the agent may distribute the parsed error message to a troubleshooting agent that is specialized in resolving specific types of errors in combination with all the elements in the independent claim.

Art Unit: 2144

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
